

Product Price List.

Wooden wall panel is an innovative world's demanded product for wall decoration. Panels are made of various tree species, different length, width and thickness of details, which are combined on the base in a beautiful way. It is a beautiful mix of shades- from gray to brown and from light yellow to black. Every beam or plank bears the handwriting of a craftsman, his thought, feelings, mood, that could not be erased by the ravages of time. You can see how in the run of years the timber has matured in the sun, wind and rain, acquiring its unique appearance. Wooden panels will create a perfect contemporary accent in each interior.
